

# Bring your heart, your vision and your voice

## Kids Can't Wait Community Gathering: October 29, 2019

Join us for a full-day gathering of families, advocates, agencies, and organizations. We are coming together to improve outcomes for children and families who receive early years supports and services in B.C.

We will explore what has happened in the last three years since the first *Kids Can't Wait*. What has improved? What hasn't? What should happen next? Our goal is to produce a **Community Action Plan** to guide our collective efforts.

### Objectives and Outcomes:

- Identify how we can improve outcomes for children, youth and their families receiving early years support
- Explore what families, community allies, and agencies are asking for and how we can collectively support each other in community
- Determine measures for progress and define success
